

End user license agreement (EULA)

This is a licensing agreement between the customer and Software Smiths Infotech (India) Pvt. Ltd. – OEM of DSafe Solution (hereinafter addressed as "SSIPL"). You (customer) represent and warrant to us that you have the Authority to accept this Agreement on behalf of yourself and your Company. Please read this document carefully. In case you do not agree, immediately stop using DSafe5 and destroy all copies of the software and/or uninstall it.

Copyright

DSafe5 is a Software (hereinafter referred to as 'Software') developed by SSIPL. SSIPL holds all copyright and proprietary rights of the software. The Software will be transferred to the customer in object code only. The Software is licensed (not sold) to you under the conditions set forth herein.

Excluded Software

This Product includes few Open-Source Binaries/Components subject to other terms and conditions governing the use of such software other than this EULA ("Excluded Software"). To the extent required by the licenses covering Open-Source Components, the terms of such licenses will apply in lieu of the terms of this EULA.

Usage limitations

You may not use the software in any way which threatens or violates the owner's copyright. That includes making copies (with the exception of two backup copies), reproducing, modifying, decompiling, reverse engineering, disassembling or making derivative products of the software or decoding it in any other way.

Product License and Client Licenses

A Product license of the software permits the user to install and use the software on one computer or a number of computers within the organization depending on the number of devices for which you have purchased Client licenses as set forth in the documents that accompanied your purchase, provided that such use is only for the subscription term purchased by you, solely by personnel employed by you, and solely for internal business operations. Each Product License permits only one DSafe Server installation. You will receive a unique Product Key and Product Serial Number for one Product License.

Transferability

This license is granted to you only and as such does not permit you to sell, lend, assign, lease or transfer in any other way any copy of the software. Any transfer in violation of this provision is not permitted and may cause your license to be terminated with no refund of the licensing fee paid.

Limited warranty and Disclaimer

The software is provided 'as is' without warranty of any kind. It is your responsibility to thoroughly test the Trial version of DSafe before purchasing it. SSIPL does not warrant that the Software will meet your requirements or that operation of the Software will be un-interrupted or that the Software will be error-free.

SSIPL shall not be responsible for any claims attributable to errors, omissions, or other inaccuracies in the software. In no event shall SSIPL be liable for direct, indirect, special, incidental, or consequential damages arising out of the use of or inability to use the disks or the programs or for any loss or damage of any nature caused to any person or property as a result of the use of the software. Neither SSIPL nor Seller are responsible for any costs incurred as a result of lost profits or revenue, loss of use of the programs, loss of data, the costs of recovering software / data / third party claims. Any Liability of SSIPL or Seller will be limited exclusively to product replacement or refund of purchase price within 30 days of purchase.

SSIPL shall not be held responsible if you implement DSafe in countries where strong Encryption software is illegal.

You should be aware of any compliances/laws required by authorities in your region. if not compliant kindly do not use the software.

Cloud Destinations:

SSIPL does not provide Cloud Space for usage as Destination. You will be purchasing the Cloud space and using it as per their Terms and Conditions/Compliances. In case improper content from your machine/s is uploaded through DSafe then SSIPL is not responsible. In case The Cloud Service Provider throttles bandwidth for any reason or terminates the access, SSIPL is not bound to provide support.
